## Induction Time!

Service Above Self – Making a Difference

Editor – PP Geoff Horvath

### September is Basic Education and Literacy Month

Rotary supports activities and training to improve education for all children and literacy for children and adults.

The Rotary Foundation enables Rotarians to ensure that all people have sustainable access to basic education and literacy by:

1. Involving the community to support programs that strengthen the capacity of communities to provide basic education and literacy to all;
2. Increasing adult literacy in communities;
3. Working to reduce gender disparity in education;
4. Supporting studies for career-minded professionals related to basic education and literacy.

**Rotary members make amazing things happen, like:**

**Opening schools:** In Afghanistan, Rotary members opened a girls' school to break the cycle of poverty and social imbalance.

**Teaching adults to read:** Rotary members in the United States partnered with ProLiteracy Detroit to recruit and train tutors after a study showed that more than half of the local adult population was functionally illiterate.

**New teaching methods:** The SOUNS program in South Africa, Puerto Rico and the United States teaches educators how to improve literacy by teaching children to recognize letters by sounds instead of names.

**Making schools healthy:** Rotarians are providing clean, fresh water to every public school in Lebanon so students can be healthier and get a better education.

**Enhancing educational systems:** In Kenya, Rotary clubs are working with the Global Partnership for Education and local and national governments to advance life-long learning opportunities for poor and marginalized children.

Since it was founded more than 100 years ago, the Foundation has spent more than \$4 billion on life-changing, sustainable projects.

### What impact can one donation have?

- For as little as 60 cents, a child can be protected from polio.
- \$50 can provide clean water to help fight waterborne illness.
- \$500 can launch an antibullying campaign and create a safe environment for children.

With your help, we can make lives better in your community and around the world.

## WORDS OF WISDOM

*You can have anything you want if you want it badly enough. You can be anything you want to be, do anything you set out to accomplish if you hold to that desire with singleness of purpose."*

—Abraham Lincoln

Abraham Lincoln

Abraham Lincoln was an American lawyer and statesman who served as the 16th president of the United States from 1861 until his assassination in 1865. President Lincoln was a self-taught lawyer, legislator and vocal opponent of slavery, was elected 16th president of the United States in November 1860, shortly before the outbreak of the Civil War. Lincoln proved to be a shrewd military strategist and a savvy leader: His

Emancipation Proclamation paved the way for slavery's abolition, while his Gettysburg Address stands as one of the most famous pieces of oratory in American history. In April 1865, with the Union on the brink of victory, Abraham Lincoln was assassinated by Confederate sympathizer John Wilkes Booth.

## ROTARY MINUTE

### The Four-Way Test

In 1932, Rotarian **Herbert J. Taylor** created The Four-Way Test as a moral code for personal and business relationships. The test, which has been translated into more than 100 languages.

One of the world's most widely printed and quoted statements of business ethics is The Four-Way Test, which was created in 1932 by Rotarian Herbert J. Taylor (who later served as RI president) when he was asked to take charge of a company that was facing bankruptcy. [History.com](http://History.com)

Herbert J. Taylor – PPRI 1954-55

This 24-word test for employees to follow in their business and professional lives became the guide for sales, production, advertising, and all relations with dealers and customers, and the survival of the company is credited to this simple philosophy. Adopted by Rotary in 1943, The Four-Way test has been translated into more than a hundred languages and published in thousands of ways.

Correspondence

**Blood Bank of Hawaii**  
**Hawaii needs more than 200 blood donors every day.**

To schedule an appointment, talk to your Lifesaver Club coordinator, visit [bbh.org](http://bbh.org) or call (808) 848-4770.

You are such an important part of saving lives with us. I wanted to let you know of temporary operational changes that will be affecting our blood collection. Faced with staffing challenges that many industries and organizations are experiencing in the current environment, we are temporarily modifying our operations by **pausing the scheduling of any community-hosted blood drives by Lifesaver Clubs (LSCs) and collections at our Windward Mall location now through October 31, 2021.** This will include our Hilo drive later this month and Kona in October. Our goal is to resume our normal operations in November, and we will keep you informed as soon as a restart date is confirmed.

This pause will allow us to ensure our donors receive the highest standard of care and attention while we maintain healthy standards for our teams. However, it also means that we will be relying on our three Oahu donation sites to supply blood for the ENTIRE state. **Hours and operations at our three main donor centers remain the same.** We ask you to please continue your support by using your Lifesaver Club group code (2990), and directing your donors to these sites below and [sharing this link](#) or phone number – 848-4770 – for appointments.

- **Young Street Donor Center** – Open 7 days a week
- **Dillingham Donor Center** – Open Tuesday through Saturday
- **Waialele Center** – Open 7 days a week

With your continued support, Blood Bank of Hawaii will meet the needs of our hospitals and patients and deliver on our mission of providing a safe and adequate blood supply. If you have any questions, please feel free to call or email me. Mahalo!

## QUOTE OF THE WEEK

*Whatever the mind of man can conceive and believe, it can achieve.* —Napoleon Hill

**Napoleon Hill**

Oliver Napoleon Hill was an American self-help author. He is known best for his book *Think and Grow Rich* which is among the 10 best-selling self-help books of all time. Hill's works insisted that fervid expectations are essential to improving one's life.

## QUIZ OF THE WEEK

How many eyelids does a camel have?

### New Member Induction

**Cross Crabbe**

This evening, we had the pleasure of inducting our youngest Rotarian into our Club. He is **Cross Crabbe**.

Cross is a graduate of Kamehameha Schools and Seattle Pacific University, receiving a Bachelor in Arts and a BA in Life Sciences., and Kapi'olani Community College, and lives in Wahiawa

Cross is totally committed to our community and youth. He recently received recognition for being a member of District 2, City and County of Honolulu, Youth Commission. In this capacity, he is a part of a collective

that advocates for our younger generations to feel seen and heard!

**Mayor Rick Blangiardi and Cross Crabbe**

For a young man, in his very early 20's, he has accomplished a lot:

- Community Health Intern at Waianae Cost Comprehensive Health Center
- Community Health Worker for Project Vision Hawai'i
- Graduate Student Intern, U. S. House of Representative
- Humanitarian Aid Intern
- Legislative Aid/Community Liaison, State of Hawai'i
- Kealahou West Oahu – Case Manager, responsible for assisted homeless families transition into transitional or permanent housing.

Currently, Cross is working for Wahiawa Health, another community-based organization, assisting in administering COVID-19 vaccinations.

As you can see from his past, Cross is heavily involved within community service. One of his main reasons he gained Rotary is because, making a difference alone is not as effective of making a difference with other like-minded people. Rotary fits the bill!

Answer to the Quiz of the Week. **Three!**

Camels have three eyelids to protect themselves from the blowing desert sand.

Camels have three sets of eyelids and two rows of eyelashes to keep sand out of their eyes. Camels have thick lips which let them forage for thorny plants other animals can't eat. Camels can completely shut their nostrils during sandstorms.
